Full-Stack Developer · Berthoud, CO

me@micahshu.com(720) 737-4825[micahshu.com](mailto:micahshu.com)[github.com/micahshu](https://github.com/micahshu)

---

## SUMMARY

Full-stack developer with 5 years of experience. Started in WordPress and agency client work, grew into full-stack architecture, internal tooling, and DevOps. Currently a full-stack developer at Zero Gravity Marketing — building production systems, overhauling internal workflows, and owning projects end to end. Available for remote contract work and open to full-time opportunities.

---

## EXPERIENCE

### **Full-Stack Developer** Apr 2024 – Present

Zero Gravity Marketing LLC Remote

- Rebuilt the company's public website using Next.js and a custom reverse proxy system, preserving legacy infrastructure while modernizing performance and SEO.
- Built and maintained internal tooling and DevOps automation — CI/CD pipelines via GitHub Actions, containerized environments, and deployment workflows.
- Integrated internal systems to reduce manual overhead, saving dozens of hours weekly across departments.
- Provided senior-level support for complex server, DNS, and deployment issues.
- Continued supporting and modernizing high-priority WordPress projects alongside greenfield full-stack work.

### **Hosting Team Lead / Web Developer** Apr 2022 – Apr 2024

SharpNet Solutions Inc Fort Collins, CO

- Designed and built a full-stack internal app using React, Next.js, Express, and PostgreSQL — consolidating client tracking, project status, and credential management into one system.
- Implemented secure authentication with JWT; built RESTful endpoints supporting dynamic dashboards and admin features.
- Managed hosting infrastructure and client site pipeline. Oversaw one direct report.
- Collaborated with project managers on feature scoping, edge case testing, and UX iteration.
- Reviewed code and documented best practices for the development team.

### **Freelance Web Developer** 2021 – Present

Self-employed Berthoud, CO

- Building custom websites and web applications for small businesses in Fort Collins and Northern Colorado.
  - Early work: WordPress builds and theme development for Bloom Social Media and local clients.
  - Current stack: Next.js, TypeScript, React, Tailwind, Node, PostgreSQL. WordPress and headless CMS for content-managed sites.
  - One developer, start to finish — no handoffs, no subcontractors.
-
